MEMORANDUM FOR: Chief Instructor,
Chiefs of Station Seminar

Hank:

I am dictating this upon my return to my office from the Chiefs of Station Seminar today. I have a feeling that the Director of Personnel's one hour with this group might be more useful if devoted to any questions in the personnel field they might wish to raise rather than attempting to deal, as we have been for some period now, with the subjects we had today. [redacted] questions about the effects of the rollback are what prompt me to this thought. I am sure that there are a good many other things which could have usefully been discussed, albeit briefly. If you agree, I would suggest that the group be told in advance that I will not have prepared remarks but would be prepared and happy to cover any subjects they wanted to raise.
